PROFESSIONAL SUMMARY

AI & Data Science undergraduate with hands-on experience across four analytics internships, delivering dashboards, EDA pipelines, and reporting workflows in Python, SQL, and Power BI. Skilled at turning raw, messy business data into clear, actionable insights for stakeholders. Seeking a full-time/internship Data Analyst or Data Science role.

TECHNICAL SKILLS

Languages: Python, SQL

Business Intelligence: Power BI (DAX), Microsoft Excel, Tableau

Database: MySQL

Data Engineering: ETL, Data Pipelines, Data Warehousing, Apache Spark

Statistical Methods: Hypothesis Testing, A/B Testing, Statistical Analysis

Cloud: AWS (EC2, S3, IAM, VPC, RDS, Glue, Redshift, Lambda)

Tools: Git, GitHub, VS Code, Postman, Jupyter Notebook, Google Colab

AI Tools: ChatGPT, Gemini, Claude, GitHub Copilot — AI-assisted analysis & development

INTERNSHIPS

Data Analytics Intern — Skillfied Mentor

Jun 2025 – Jul 2025

- Cleaned, validated, and preprocessed sales datasets in Python (pandas), resolving missing and duplicate records to improve analysis reliability.
- Built Excel-based EDA dashboards surfacing key sales trends, streamlining the team's manual reporting workflow.

Data Science Intern — Vcodez

Nov 2025 – Feb 2026 (Part-time/Remote)

- Performed feature engineering and EDA across multiple structured datasets, improving data readiness for downstream analysis.
- Delivered analytical reports uncovering key patterns that informed business reporting and decision-making.

Data Analytics Intern — Zaalima Development

Nov 2025 – Feb 2026 (Part-time/Remote)

- Designed HR dashboards in Power BI tracking attrition and headcount trends, enabling leadership to spot workforce patterns at a glance.
- Analyzed business datasets, translating findings into practical recommendations for the team.

Data Analytics Intern — Cognifyz Technology

Jan 2026 – Feb 2026

- Executed exploratory data analysis, generating business insights that supported team decision-making.
- Automated a recurring analysis step, freeing up time for deeper insight work.

PROJECTS

- Ride-Sharing Demand & Revenue Analytics** — Python, SQL, MySQL, Power BI, Excel. Built an end-to-end data pipeline processing 10,000+ records across rides, users, drivers, vehicles, and ratings tables; analyzed demand, revenue, peak periods, and driver performance to surface actionable operational insights.
- Cricket Score Prediction** — Python, Pandas, Scikit-learn, Google Colab. Built an ML regression model on 10,000+ match records, predicting final innings scores from match-state features (overs, wickets, run-rate), with feature engineering and preprocessing to improve model reliability.
- E-commerce Sales & Operations Analysis** — Python, SQL, Power BI. Analyzed 10,000+ sales and operational records across products and customer segments, identifying key revenue trends and generating actionable business recommendations.
- TalentView — HR Attrition & Workforce Dashboard** — Python, MySQL, Power BI, Excel. Built an interactive HR analytics dashboard on 10,000+ workforce records, tracking attendance, ratings, and attrition patterns to highlight key drivers for workforce decisions.
- OptiStock — Inventory Optimization** — Python, Excel. Analyzed inventory and demand patterns across 10,000+ records to flag stockout and overstock risk, supporting more data-driven inventory decisions.
- Sentiment Analysis** — Python, NLP, Machine Learning. Built a sentiment classification model on 10,000+ customer and user reviews, distinguishing positive, negative, and neutral patterns.

EDUCATION

Erode Sengunthar Engineering College, Tamil Nadu

2023 – 2027 (Expected)

B.Tech in Artificial Intelligence and Data Science

Nirmala Matha Convent Matriculation Higher Secondary School, Erode

2022

Higher Secondary Certificate (HSC)

CERTIFICATIONS

- Career Essentials in Data Analysis — Microsoft & LinkedIn
- Secure Data Access in Power BI — Microsoft
- Data Visualization — TATA
- Microsoft Excel for Data Analysis — Coursera
- AWS Cloud Technical Essentials — Coursera

ACHIEVEMENTS

- 3rd Prize — National Hackathon (Smart Waste Management), Sona Engineering College, Salem
- 1st Prize — Ideathon (Digital Health Solution), SNS Institute of Technology, Coimbatore
- 2nd Prize — Paper Presentation (Baby Health Passport), United Institute of Technology, Coimbatore
